Bajaj pips TVS in Oct to top electric 2-wheeler market

SURAJEET DAS GUPTA
New Delhi, 31 October

Bajaj Auto has climbed to the top spot in the electric two-wheeler (e2W) market in October for the first time this financial year (FY26). It has grabbed a 21.9 per cent share of the market with the registration of 29,567 vehicles as on October 31.

*Data as on Oct 31 Source: VAHAN

saw registrations of 28,008 vehicles, a market share of 20.7 per cent, just behind Bajaj.

At the third spot is Ather Energy, which is in a fierce battle with the incumbent competitors to challenge their position.

The company has already grabbed a market share of 19.6 per cent in October with registrations of 26,713 units and is in close distance of challenging TVS.

However, Telangana is a big market for Ather, and its numbers are available only in the first week of November. This could lead to an upward revision in its figures.

The once market leader Ola Electric, on the other hand, continued its slide — it was in the fourth position, with a market share of 11.6 per cent in October having registrations of 15,481 vehicles.

The company, which once ruled the market even with a 50 per cent share, is now under threat from Hero Motocorp's Vida to maintain its fourth spot.

The latter is closing in by hitting a market share of 11 per cent with 15,064 vehicles.

The good news is that October, Bajaj Auto clearly got over the challenge that it had faced due to the shortage of rare earth magnets — a key component for the electric motor.

The shortage was due to the Chinese export control order stopping its imports in April.

The company had publicly stated that it might have to close down its production or cut it down due to the crisis.

And, Bajaj's registrations of electric two-wheelers fell in August to a low of 11,776 — its lowest this financial year.

Swan eyes ₹875 cr in govt support for Pipavav Shipyard expansion

DHRUVAKSH SAHA
Mumbai, 31 October

Swan Defence and Heavy Industries (SDHI), which owns India's largest shipyard in Pipavav, Gujarat, is eyeing around ₹875 crore in government assistance for the yard's expansion, according to a top executive.

This is in the wake of the recently announced ₹20,000 crore shipbuilding cluster programme, under which expansions are supported by the government.

The company is planning the shipyard's expansion and signed a memorandum of understanding with the Gujarat Maritime Board for an overall development plan of ₹4,350 crore. This includes

Swan Defence and Heavy Industries CEO Vipin Kumar Saxena said the firm aims to be a global player in shipbuilding

development of a 550 crore maritime cluster, Vipin Kumar Saxena, chief executive officer (CEO) told Business Standard.

With the latest ₹70,000 crore maritime booster programme and announcements

made by Prime Minister Narendra Modi building demand aggregation, the company is also eyeing a bigger role in the global market.

"Foreign shipping lines are also watching India closely, and they will also come to India to build their ships. We are also in discussions with foreign clients for orders. With the capacity we have, we are very keen to become a global player," he said.

The 600-acre facility can undertake multiple projects of very-large class vessels concurrently. The company is looking at opportunities in small and medium sizes as well, where the government has given a major push, especially for crude oil vessels in the immediate future.

"Commercial shipbuilding is bound to pick up. All of us are gearing up with the hope that the demand generated will build self-reliance in commercial shipbuilding. The demand will come from both public and private sectors as their commercial vessels were being built outside India — now these will come to India," he said.

SDHI recently partnered with Samsung Heavy Industries for technical assistance. Under the broadfield expansion programme of the scheme, existing shipyards can avail an assistance of 25 per cent of the capital expenditure undertaken. The government has dedicated a corpus of ₹8,201 crore for the scheme.

Narayana Health acquires UK hospital in ₹2,200 cr deal

ANEKA CHATTERJEE
Bengaluru, 31 October

Bengaluru-headquartered Narayana Health has made its first major overseas push, acquiring the UK's Practice Plus Group Hospitals in a ₹2,200-crore (\$288.78 million) deal, gaining a network of 12 specialty surgical centres.

The acquisition marks the Indian hospital chain's entry into the British healthcare market, strengthening its global expansion ambition while deepening its presence in key specialties such as orthopaedics, ophthalmology, and general surgery. Narayana Health will also gain control over Practice Plus Group's 330 in-patient and outpatient beds.

The deal further extends Narayana Health's international footprint, building on its earlier foray into the Caribbean through Health City Cayman Islands, the company said in a filing to the BSE.

Devi Prasad Shetty, founder and chairman of Narayana Health, said, "The acquisition of Practice Plus Group Hospitals and surgical centres is an incredibly exciting step for Narayana Health. Like us, Practice Plus Group recognised that while the majority of patients struggle to access healthcare, only a minority can afford costly private care."

"We have both been determined to serve those in between, to offer a new choice of more accessible private healthcare. Together,

we are a perfect fit, and I look forward to welcoming Practice Plus Group to Narayana Health and helping many more patients get the care they need," Shetty added.

Practice Plus Group is the fifth-largest private hospital network in the UK, the company said in a release. Through this acquisition, Narayana Health gains access to a market where demand for surgeries — especially in the private sector — is projected to rise sharply in the coming years.

Jim Easton, chief executive of Practice Plus Group, praised Narayana Health's reputation for high-quality, efficient care delivered with a human touch, saying he is "excited about what our hospitals and surgical centres can achieve with the commitment and expertise of Narayana Health behind us".

"This is a milestone acquisition for us — it marks the first renewable energy investment for India Investments in India — a country of utmost importance both for IKEA retail and the IKEA supply chain. The new solar project in India will produce 380 GWh of renewable energy annually — more than enough to power our growing retail, shopping centre, and distribution operations. It's a big step in making our retail business in India more sustainable, efficient, and future-ready." As part of a global commitment, ₹2.5 billion has been committed to support 100 per cent renewable energy consumption across value chain and beyond by 2030.
